Esel
PostandgoCheckList

This Check List has been designed to only include standard issued stamps, reference is made to premature issues, major print errors and the like, but does not include all software and local print errors.

Similarly, not all listings are made where, in recent times following the introduction of NCR machines, 1st and 2nd class stock are placed in the wrong printer (accidentally or intentionally) - where known they are included

Also, the list does not include the Open Value (OV) Faststamps issued from NCR machines since their introduction in 2014.

All images of British stamps are Copyright of Royal Mail.

Introduction

Post & Go Faststamps were introduced on 8th October 2008 from a kiosk in a post office at The Galleries in Bristol.

Since that time Faststamps have been made available at more and more outlets across the UK, mainly in Post Offices, but also from exhibitions national & international, local stamp shows & fairs as well as kiosks (or machines) in high street stores.

The kiosks or machines have changed considerably in the short time since their inception, and improved considerably. Below is a pictorial summary:-

Wincor-Nixdorf

This type of machine (Kiosk) was the standard installed at all the Post Offices across the UK, until 2014.

Hytech PostalVision

Spring Stampex 2011 trial machine.

Kiosk Nos. 21 & 22

Hytech V1

Machine as used at the Autumn Stampex 2011

Kiosk Nos. 91, 92, 93 & 94.

Hytech V1 (Modified)

Machine as used at the Spring Stampex 2012

A modification was carried out to prevent customers from pulling the stamp strip during printing and thus generating errors. This comprised a guard over the slot where the stamp strips were delivered.

Kiosk Nos. 21, 22, 23 & 24

Royal Mail Series I

(Also known as Hytech V2)

First appearance at Autumn Stampex 2012

Kiosk Nos. A1, A2, A3, A4 & A5
B1 & B2

NCR

Known as Self Service 'Postal Kiosks' (SSKs)

The NCR machine appeared early in 2014, and before the year was out had replaced almost all the Wincor-Nixdorf machine in the UK

As well as the standard 6 stamp values (1st Class and Overseas) the NCR machine can dispense 2nd Class (Standard & Large, up to 100g).

In addition it can dispense a whole range of "Open Value" stamps for letters, parcels, including Special Delivery, Tracked, Signed For, and differing VAT codes.

Basically, the NCR machines can process almost all Royal Mail and Parcelforce products that are usually only available at the counter.

Royal Mail Series II

Supplied by Intelligent AR Ltd
First appearance at Spring Stampex 2014

The machine is capable of dispensing the standard 6 values of stamps and the two 2nd Class values, as it has 2 reels.

Kiosk Nos. A001 to A014
B001 & B002
B003
C001 & C002
GG01 & GG02
GI01 to GI03
J001 (later to be re-numbered as JE01) & JE02
QA01 & QA02

RM Ser. II
A002 to A010
GG, GI & JE

RM Ser. II
A011 to A012 & ES01
(With smaller rectangular base)

A001 permanently installed at the BPMA in London
A002 permanently installed at the NMRN in Portsmouth
A003 permanently installed at the FAAM in Yeovilton
A004 permanently installed at the RNSM in Gosport
A005 permanently installed at the RMM in Southsea - Relocated to EARM Colchester
A006 permanently installed at HMS Trincomalee, Hartlepool
A007 permanently installed at Explosion! - RN Museum of Firepower, Gosport
A008 permanently installed at HMS Caroline, Belfast - Removed Jan-17
A009 permanently installed at Shakespeare Centre, Stratford upon Avon
A010 permanently installed at STEAM GWR in Swindon
A011 permanently installed at Royal Corps of Signals - Blandford Forum
A012 Exhibition duty
A013 Exhibition duty
A014 Exhibition duty
GG01 Exhibition duty
GG02 permanently installed at Envoy House, St. Peter Port, Guernsey
GI01 permanently installed at Gibraltar House, The Strand, London
Removed Jan-18 for security purposes. Now only Exhibition duty
GI02 permanently installed at Main Post Office, Main Street, Gibraltar
GI03 permanently installed at Parcel Office, North Mole Road, Gibraltar
GI04 permanently installed at Royal Gibraltar PO, back office machine
JE01 Exhibition duty
JE02 permanently installed at Broad Street, St. Helier, Jersey
ES01 permanently installed at CCP Chamartin, Madrid, Spain

Royal Mail Series II +

This is the standard RM Ser. II machine with a "Pod" bolted to the side giving the unit the capability of dispensing stamps from a total of 4 reels.

Kiosk No. A001+

On or about 24-Oct-16, the third printer in centre of the bolted-on pod, has been set-up to print stamps. So A001+ is now capable of supplying 5 different designs at any one time.

Royal Mail Series II - M (or Mail centres) Series

Supplied by Intelligent AR Ltd

First appearance at Crewe and Bradford North Enquiry Offices 9th February 2015

In addition to the facility of having two reels / printers the M Series can perform other functions. These machines also accept payment for 'Postage Due', VAT and Customs Duty. A receipt is issued, that can then be given to the office staff for collection of the letter / package. It is envisaged that further duties will be available in the future.

Since the beginning of 2016, these kiosks no longer show on-screen the design of the stamps being dispensed, only the indication of 1st Class or 2nd Class. As these machines are primarily for postal, and non-philatelic use, the design of stamp is irrelevant, making operation and maintenance simpler.

Kiosk Nos. M001 to M011
M007 - Royal Mail HQ
M008 & M009 - not yet in service

NCR Mk1

Known as Self Service 'Postal Kiosks' (SSKs)

First seen at Great Portland Street Post Office - London (006009)
Operational 21-Nov-16

The kiosks are smaller, they are card only (no cash) the scales have been moved in front of the stamp slots and the receipt printer is now where the coin chute was

DKU - Desktop Kiosk Units

Supplied by Intelligent AR Ltd

First seen on Cartor stand at CICE Nanjing, China in 2017 and with Guernsey Post at Essen International Stamp Fair 2018

Kiosk Nos. CSP2 & CSP3 - Cartor Security Printers
GG03 - Guernsey
JE03 - Jersey - First seen at MACAO 2081, 35th Asian Int. Stamp Exhibition

The DKUs have 2 printers - one for stamps and the other for receipts, thus can only produce a single issue of stamps.

Correos Post - 'Internal-Use' Computer System. Cor. IUCS

This new computer system, for internal use only, includes a tablet, with a program specially created and designed to cater to the needs of the philatelic service thus enabling the management and control of the whole process of variable value stamp printing. The computer application is also accessible through a screen and a keyboard. The system includes three Brother TD-4100N direct thermal printers, two for stamps and one for receipts. The new computer system uses the same rolls of thermal labels, is programmed with the same values and, the information printed on the stamps is almost identical to the ES01 kiosk imprint; same format, size and printing fonts. Only the code of the printing equipment (ES02 in Avilés) shows the origin of the stamps.

First seen at Avilés at Juvenia 2017 - 10-May-17 to 13-May-17

The new "internal use" computer system presented in Avilés, on its stand. But, unlike Avilés, the stamps issued by this equipment do not have the ES02 code, but PM17 ! (Plaza Mayor 2017). The new Correos procedure stipulates that the code printed on the stamps and receipts issued by this equipment will change depending on its location. No doubt, a strange decision that goes against the usual criteria elsewhere in the world which has each machine linked to a fixed identifier or code. This decision by Correos will undoubtedly cause great confusion among collectors.

And still another change; The first block of the code on the bottom of the stamps issued by this equipment will start with a 'P' (Production), unlike the kiosk, which starts with a 'B', the original letter programmed by the manufacturer to identify stamps issued by the equipment for philatelic use/sales.

aCon Stamp Printer

Supplied by aCon

The stamp printer is a versatile system that can be used in a variety of situations. It is a flexible printer system capable of producing stamps on self adhesive labels, fast and secure without the need for additional equipment or consumables.

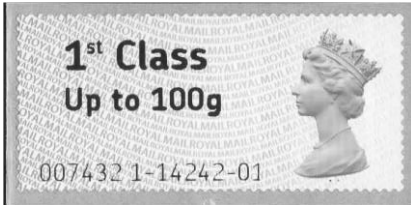

The stamps can be printed "on demand" for any required value. Thus customers are always able to purchase precisely the denominations they require.

Used with Stamps / Labels known as SOAR (Stamps on a Roll)

Used by: An Post - Eire
Isle of Man Post
Faroe Islands

Font Types

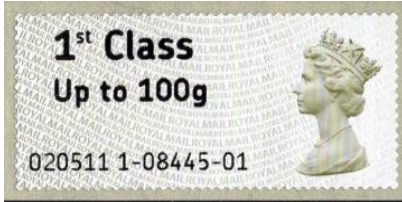

Images printed in Gravure by International Security Printers (Walsall), service indicator and datastring printed thermally at point of sale.

Font Type 1

First seen on 8th October 2008.
Wincor-Nixdorf machines, nation-wide.

"Up to" has an uppercase "U".
"g" of "100g" is in Arial or similar font.

Font Type 1a

Whole stamp printed in gravure by Walsall - 31-Mar-09
Only seen on stamps for Presentation Packs and FDCs from Tallents House.

Font Type 2

First seen 8th September 2010.
Wincor-Nixdorf machines, nation-wide.
Font change in readiness for the Pictorial Birds Faststamps to be issued which have a larger image than the Machin .
Smaller service indicator with lines 4mm apart.

"up to" has a lowercase "u".
"g" of "100g" is in Times New Roman or similar font.

Font Type 2a

First seen 20th October 2014

Font Type 2b

Whole stamp printed in gravure by Walsall - First seen 17-Sep-10
Only seen on stamps for Presentation Packs and FDCs from Tallents House.
For Birds of Britain - Series 1 to 4

Font Type 3

First seen 23rd February at Spring Stampex 2011 from Hytech Postal Vision trial machine - Kiosks 21 & 22.
Dispensing: Machins
Also, Hytech V1, first seen on 14 September 2011 at Autumn Stampex 2011 - Kiosks 91, 92, 93 & 94. Dispensing: Machins with Arnold Machin overprint, Birds 3 and Birds 4
Spring Stampex 2012 - Kiosks 21, 22, 23 & 24. Dispensing: Machins with Diamond Jubilee overprint, Birds 4 and Sheep.

Used at Tallents House for British Farm Animals, Sheep, Pigs and Union Flag (1st printing). Kiosk C2 dispensing Cattle, all Freshwater Life and Spring Blooms (1st printing) stamps for Presentation Packs and FDCs only
Bold service indicator with lines 3mm apart.

"1st Class" - approximately 19mm long. Second and subsequent lines inset.

Font Type 4

First seen 26-Sep-12 - at Autumn Stampex 2012. Hytech "Next Generation" or V2 (also known as RM Ser.I). Kiosks A1, A2, B1 & B2. Dispensing: Flags, Flags with Diamond Jubilee overprint, Pigs and Cattle.
Also, at Perth 2012, Camden Pop-up 2012, York Stamp & Coin Fair Jan-12 & Jul-13, Spring Stampex 2013, Salisbury Stamp Show 2013, Perth 2013, Australia Expo 2013, Midpex 2013, Autumn Stampex 2013, Stafford Stamp Show 2013, Pop-up Post Office Tour Nov & Dec-13 and York Stamp & Coin Fair Jan-14

Bold service indicator with lines 2.6mm apart. Datastring letters and numbers with changed typeface.
"1st Class" - approximately 20mm long. Second and subsequent lines justified left.

Also, used at BPMA from instalation of kiosk A1 from Dec-12 to Mar-14

Font Types

Images printed in Gravure by International Security Printers (Walsall), service indicator and datastring printed thermally at point of sale.

Font Type 5

First seen 19th Feb. 2014 at Spring Stampex 2014
Royal Mail Series II
Kiosks - A003, A004, A005, B001 & B002
Bold service indicator with lines 2.4mm apart.
"1st Class" - approximately 17mm long
"Worldwide" - approximately 22mm long

Used on all RM Ser. II kiosks from 19-Feb-14 to Jul-14

Font Type 6

First seen 28th February 2014 at Harpenden Post Office.
NCR machines, nation-wide.
Similar to Type 2 but with service indicator and datastring in changed typeface, datastring smaller and justified left.
Service indicator lines 3.3mm apart.

Font Type 6a

First seen 5th June 2014

Font used on all NCR kiosks from 28-Feb-14 to date

Font Type 7

First seen 28th July 2014 at NMRN
Royal Mail Series II
Bold service indicator with lines 2.7mm apart.
Using a new printer by Intelligent AR (IAR)
"1st Class" - approximately 16mm long
"Worldwide" - approximately 19mm long

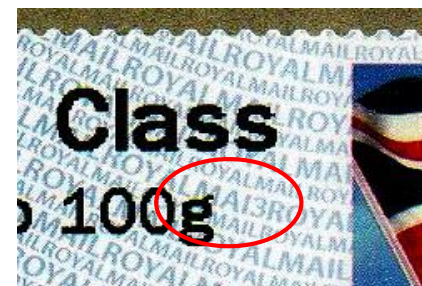

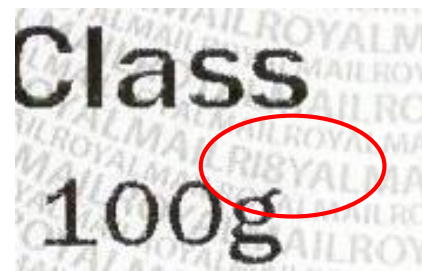

Stamps for Presentation Packs and FDCs from Tallents House only
Using machine C001 &/or C002 with new IAR printer including:- Union Flag (2nd printing 27-Jan-15) and Spring Blooms (2nd printing 18-Feb-15 (EKD))
Also all from Symbolic Flowers (27-Sep-15) to date

Font used on all RM Ser. II kiosks from 28-Jul-14 to date

Date Codes

Since 2012 Date Codes have been concealed in the background under-print "ROYAL MAIL"

Originally, Machin stamps had the date code just to the left of The Queen's forehead, MA**, however, since 2016 - CL16S (2nd class) 2017 - R**YAL (others) and on pictorial issues it is towards the end of the 2nd row of the service indicator.

Date Codes

Since 2012 Date Codes have been concealed in the background under-print "ROYAL MAIL"

Originally, Machin stamps had the date code just to the left of The Queen's forehead, MA**, however, since 2016 - CL16S (2nd class) 2017 - R**YAL (others) and on pictorial issues it is towards the end of the 2nd row of the service indicator.

Some issues have more than one date code:-

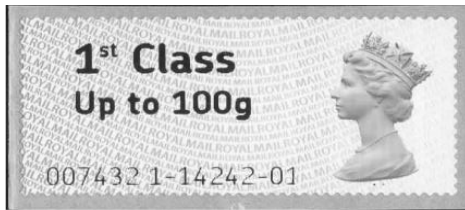

Machins	Undated, MA12, MA13, MA14, MA15 & MA16 R17YAL & R18YAL
British Birds	All undated
British Farm Animals	All undated
Union Flag	Undated & MA13
Christmas Robins	MA12 & MA13
Blue Machins (2nd Class)	MA12, MA13, MA14 & MA15 CL16S & CL17S
Freshwater Life	All undated
British Flora	MA14
Poppies	MA14, MA15 & MA16 R17YAL & R18YAL
Winter Greenery	MA14
Winter Greenery - 2017	R17YAL (1st Class) & CL17S (2nd Class)
Winter Greenery - 2018	R18YAL (1st Class) & CL18S (2nd Class)
Working Sail	MA15
Heraldic Beasts	MA15
Sea Travel	MA15
Heraldic Lion	MA15
Winter Fur & Feathers	MA15 (1st Class) & CL15S (2nd Class)
Royal Mail Heritage	MA16
Ladybirds	MA16
Hibernating Animals	MA16 (1st Class) & CL16S (2nd Class)
Mail by Rail	MA17
Machin 50	NDC
Mail by Air	R17YAL & R19YAL on Digital printing from Postal Museum 11-Sep-19
Mail by Sea	R18YAL
Mail by Bike	R18YAL

Datastrings

The datastring is a series of numbers, or numbers and letters at the bottom left of a Post & Go Faststamp.

Decoding this datastring provides considerable information as to the origins of the stamp.

Wincor-Nixdorf & NCR

007432	1	14242	01
			Item No.
			Session No.
			Kiosk No.
			Office Identifier

Office Identifier

In Wincors, this is a six digit number that has been assigned to the office that the kiosk has been allocated to. For example, 015010 is Trafalgar Square/William IV Street office. If the machine is moved from one office to another, this ident is changed. Examples of kiosks where this has changed include Premier Old Hastings kiosk (002458) which was moved to Farringdon Road, London (100003) and kiosk 4 from Tudor Street, London (242007) which was moved to Tesco Brent Park, London (074005).

See table on next pages

Kiosk No.

Some offices have more than one kiosk and so there is a need to identify which kiosk at that office vended the stamp or label.

Wincor-Nixdorf kiosks this is a single digit.

Hytech kiosks used at fairs, etc. have a two digits, e.g. 21, 22, 91, 92, 93 and 94. The first being the month of the exhibition, the second depending how many machines were present at the exhibition.

Royal Mail Series I kiosks when used at fairs, etc. have an alpha-numerical ident A1, A2, A3, A4, B1, B2, C1 and C2.

A machines are for general public use.

B machines are back-office machines used for bulk production

C machines are also back-office machines used for production of stamps for Presentation Packs and FDCs

NCR kiosks have two digits, e.g. 67, 68, 69, etc.

Royal Mail Series II kiosks when used at fairs, etc. have a four digit alpha-numerical ident A001+, A002 to A014, B001, B002, B003, C001 and C002.

Machines A, B and C are used as above

Session No.

Indicates the number of times that someone has purchased stamps/labels or other items using that kiosk.

Wincors-Nixdorf this is a five digit number.

Hytech, Royal Mail Series I and NCR kiosks it is a six digit number.

Royal Mail Series II it is a four digit number

Item No.

Within a session, one may purchase a number of stamps and / or labels as well as other items. Each purchase is numbered.

All kiosks have a two digit number (capable of 99 items) except RM Series II kiosks which has a 3 digit number (999 capacity, in theory)

Datastrings

Royal Mail Series I & II (or Hytech V1 & V2)

These machines are mobile units, used primarily at Exhibitions (Stamp Shows / Fairs), and later at static locations.

Series, Date & Location

The alpha numeric first part of the datastring provides the machine type, month, location of the machine and year.

	NL01 - NL03	Machines owned by Netherland Post
CSP1	Cartor Security Printing - Walsall	

Datastrings

Presentation Packs & First Day Covers from Tallents House

In the beginning the stamps for Presentation Packs and Royal Mail FCDs were printed by Walsall and totally in gravure

P&G 1

020511	1	08445	01
--------	---	-------	----

 The Datastring is fictitious, it suggests that it was from Bristol (020511), from kiosk No.1 and session No. 08445
It was actually printed by Walsall Security Printers and issued from Tallents House.
However, the item No. does refer to the stamp value and are numbered, 01 to 05
01 - 1st Class
02 - 1st Large
03 - Europe Up to 100g
04 - Worldwide Up to 20g
05 - Worldwide Up to 10g

From now on the datastrings are more meaningful and can be de-cyphered as follows:-
However, the Session No. 51840 is still fictitious, but some thought has gone into its creation:
51840 written as a date i.e. 5/1840 does suggest May 1840 which is a notable date!

002010	9	51840	01
--------	---	-------	----

		<u>The title of the Pack</u>
P&G 2		01 Birds I
P&G 3		02 Birds II
P&G 4		03 Birds III
P&G 5		04 Birds IV
	<u>The Month of Issue</u>	
	1 January	
	2 February	
	3 March	
	etc.	
	<u>The Year of Issue</u>	

With the introduction of Hytech V1 machine the stamps were produced from reels of stamps having images printed in gravure by Walsall and the service indicator and datastring being printed thermally.

002012	02	51840	05
--------	----	-------	----

		<u>The title of the Pack</u>
P&G 6		05 Sheep
P&G 7		06 Pigs
P&G 8		07 Union Flag
	<u>The Month of Issue</u>	
	01 January	
	02 February	
	03 March	
	etc.	
	<u>The Year of Issue</u>	

With the introduction of Royal Mail Series I machines (Also known as Hytech V2) the datastring can continue to be deciphered
It is also become more like the datastring from the exhibition units.

A9NL12	C2	051840	08
--------	----	--------	----

		<u>The title of the Pack</u>
P&G 9		08 Cattle
		09
P&G 10		10 2nd Class - Blue Machin
		11 2nd Large - Blue Machin
P&G 11		11 Ponds
P&G 12		12 Lakes
P&G 13		13 Rivers
P&G 14		14 Spring Blooms
<u>See previous page</u>		

Datastrings

Presentation Packs & First Day Covers from Tallents House

With introduction of Royal Mail Series II machines, the machine No. becomes 4 digit, as does the Session No. (1840 still a notable date)

B7GB14	C001	1840	015
--------	------	------	-----

		The title of the Pack
P&G 15		015 Collectors Pack
P&G 16		016 Symbolic Flowers
P&G 17		017 Winter Greenery
P&G 18		018 Working Sail
P&G 19		019 Heraldic Beasts
P&G 20		020 Sea Travel
P&G 21		021 Winter Fur & Feathers
P&G 22		022 Royal Mail Heritage
P&G 23		023 Ladybirds
P&G 24		024 Hibernating Animals
P&G 25		025 Mail by Rail
P&G 26		026 Machin 50th Anniv.
P&G 27		027 Mail by Air
P&G 28		028 Game of Thrones
P&G 29		029 Mail by Sea
P&G 30		030 Mail by Bike

See previous page

Following the lead of the GB datastrings for Presentation Packs and FDCs where the session No. is the year of the first issued stamp, i.e. 1840, the first time it was used was for Birds of Britain I - 002010 1 **51840** 02 (May 1840). Subsequently, from the Open Values issue, B7GB14 C001-**1840**-015

Jersey followed suit with their Protected Species issue, B2JE15 B002-**1969**-002, and again with the Crests of Jersey set, B2JE16 B002 **1969** 003. 1969 being the year that Jersey established their own independent postal administration and introduced their own stamps.

Likewise Guernsey's first Flag set was issued with the datastring of B2GG15 B002-**1969**-001, and the Bailiwick Life set, B2GG16 B002 **1969** 002. Again, 1969 being the year that Guernsey established their own independent postal administration and introduced their own stamps

Similarly, when Gibraltar joined the Post & Go family, their official FDC had stamps with the datastring, B5GI15 B002 **1886** 001. 1886 being the year that stamps specifically marked Gibraltar were issued, they were stamps of Bermuda overprinted as such.

Only about 12 of these FDCs were produced

402511	402511 is the ID number of a small sub-post office at Rooksbridge (Bristol Road, Rooksbridge, Axbridge, Somerset BS26 2TE), which does not have P&G machine. When new NCR machines are set up a test is done using this number. This number will appear on whatever roll is in the machine. Once the test is completed the machine will then be programmed with the correct office ID. The complete Datastring is always the same: 402511 72 001985 03							
--------	--	--	--	--	--	--	--	--

114777	These are not Post Office ID numbers.							
113777	They were dummy numbers used on a Wincor-Nixdorf machine for test/trial purpose only.							
123456	The machine was at Old Street (not Old Street Post Office). It has been a while since this machine was removed from Old Street.

- NL03 **POSTNL** - The Netherlands - The Hague (Beatrixlaan 23, Den Haag, NL)

M (or Mail centres) Series Kiosks

The placement of Post and Go machines in the Royal Mail Enquiry Offices at Crewe (A003) and Bradford North (A004) on 3rd December 2014 had been reasonably successful, and was extended for a further 6 months.

On 9th February 2015, due to exhibition requirements the two existing kiosks were replaced by two new kiosks, M002 in Crewe and M003 in Bradford North, and carried location Identifiers “Crewe” and “Bradford N” respectively.

These machines also accept payment for 'Postage Due', VAT and Customs Duty. A receipt is issued, that can then be given to the office staff for collection of the letter / package.

On the 30th March 2015, at the tariff change, the Location Identifiers were removed, leaving the machine (or kiosk) number as the only identifying element in the datastring.

Following the trial use of Royal Mail II Post and Go machines at Crewe and Bradford North three new Enquiry Office Post and Go machines will go live from 27 April 2015 as part of the ongoing trial. The list so far being:-

Kiosk No	Went Live	Location	Address	Postcode	Remarks
M001	10-Feb-15	Wheatstone House	Wheatstone Road, Dorcan, Swindon, Wilts.	SN3 5JN	For development. Removed Oct-15
	27-Jan-16	BFPO HQ - RAF Northolt	West End Road, Ruislip, Middlesex	HA4 6NG	For evaluation, base personnel use ONLY

M011	02-Feb-17	MOD Abbey Wood	Abbey Wood, Stoke Gifford, Bristol	BS34 8JH	

Colours

Faststamps are produced from stock, rolls of stamps with images ready for the thermal printing of the value, datastring and overprint (where needed) and are usually printed in a single run, so colour matching is not normally a concern. The exception being the Machin Head (1st and 2nd Class) and Union Flag designs.

The Machin Head stamp first issued in 2008 was printed by Walsall Security Printers of Walsall in a shade of sepia, or olive, known as 'Horizon Green'. All stamps with no date code (NDC), MA13 and MA14 are in this colour.

Following the formation of International Security Printers and the move of production to Wolverhampton the colour was matched using the Pantone system, but the outcome was a 'yellowish' shade than previous. Stamps printed on the new press with the new colour have the date code MA14 and MA15.

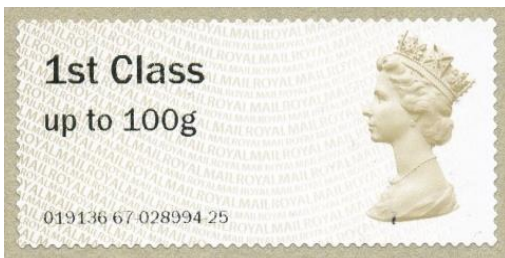

Near the end of 2015 the Royal mail became aware of the colour change and insisted that ISP revert to the original shade. Stamps having code MA16 will be to the original colour.

NDC, MA13 & MA14	Original Olive
MA14 & MA15	Yellow Olive
MA16 and onward	Original Olive

Due to stock control of the rolls of stamps at various locations it will take some considerable time for the original colour to fully work through the system.

Original Olive

Yellow Olive
